5. Review of March Service Changes
Michael Eshleman, Service Planning Manager, reported the following as part of the March service changes to be implemented on March 18, 2018. The March sign-up is generally reserved for making minor adjustments to service based on feedback received after the August and December sign-ups. This sign-up has several small adjustments to running times and schedules to improve reliability. The following changes will take place in the March sign-up:

- Schedule changes to lines 29 and 72R.
- Line 12 northern terminal changed to Harrison and 5th with the final in-service stop at Gilman and 6th.
- Line 57 terminal will be temporarily moved to La Coste and 65th in Emeryville to accommodate construction activities at Emeryville Public Market.

6. Update on Regional Measure 3 (RM3)
Estee Sepulveda, Legislative Affairs & Community Relations gave an update on Regional Measure 3. Regional Measure 3 (RM3) is a measure on the June 5, 2018 ballot in the nine-county San Francisco Bay Area. The measure is a plan to build major roadway and public transit improvements via an increase in bridge tolls on all Bay Area toll bridges except the Golden Gate Bridge. RM3 was authorized by the State Legislature by Senate Bill 595 (authored by Senator Jim Beall of San Jose) and signed into law by Governor Edmund G. Brown, Jr. in 2017. The goal of RM3 is to reduce traffic congestion and improve transportation options throughout the San Francisco Bay Area’s state-owned toll bridge corridors. Measure will be administered by the Bay Area Toll Authority (BATA).

AC Transit Funding
- Regional Express Bus
  $20 million in operating funds are available. Language in the project description for “Regional Express Service” specifies that these funds will be allocated in proportion to Transbay bus ridership.
- Core Capacity Transit Improvements
  $140 million will be distributed. Language in the project description for “Core Capacity Transit Improvements” states that funds are for AC Transit Tier 1 and Tier
2 projects, which includes new buses, a new bus facility, and other priority improvements required to expand Transbay service.

- **AC Transit - Rapid Bus Improvements**

  $100 million funding commitment for AC Transit - Rapid Bus Improvements to make transformative improvements for ridership levels and congestion relief.

RM3 proposes a toll increase of $1 in 2019, $1 in 2022 and $1 in 2025. Subject to voter approval of RM3, BATA would be allowed to adjust the RM3 portion of the tolls to account for inflation after the RM3 toll increase is fully phased in.

Voter approval would affect toll rates on the Bay Area’s seven state-owned toll bridges, which include the Antioch Bridge, the Benicia-Martinez Bridge, the Carquinez Bridge, the Dumbarton Bridge, the Richmond-San Rafael Bridge, the San Francisco-Oakland Bay Bridge and the San Mateo-Hayward Bridge. Tolls on the Golden Gate Bridge would not be affected as it is owned and operated by an independent district not overseen by BATA.

Based on current traffic volumes, each dollar generates approximately $125 million in annual toll revenue. The RM3 Expenditure Plan identifies projects that would be funded if voters improve a toll increase of $3 over six years. The annual revenue would be used to finance a $4.5 billion slate of highway and transit capital improvements along with $60 million annually to provide new bus and ferry service in congested bridge corridors and improved regional connectivity at the future Transbay Terminal.

7. **Chair’s Report**

Robson reported that the City of Oakland Public Works department has been installing temporary bus islands on 24th and 27th and Telegraph Avenue. These boarding islands are platforms separated from the sidewalk by a bike lane and allow transit vehicles to remain in the travel lane while picking up and dropping off passengers. Robson encouraged Committee members to go experience these structures for themselves.
