

Line 96

Frequency and Route Changes at Alameda Point

BACKGROUND

Residents will begin moving into a new housing development, currently known as Site A, along Atlantic Ave/Apezzato Memorial Parkway between Orion St. and Ferry Point in the Spring of 2020. As part of the Transportation Demand Management Plan (TDM) for Alameda Point, AC Transit is expected to provide additional bus service for the new residents. Since the nearest Line 96 bus stop is 1,300 feet away from the edge of Site A, the Line 96 route needs to be adjusted in order to improve service quality and access.

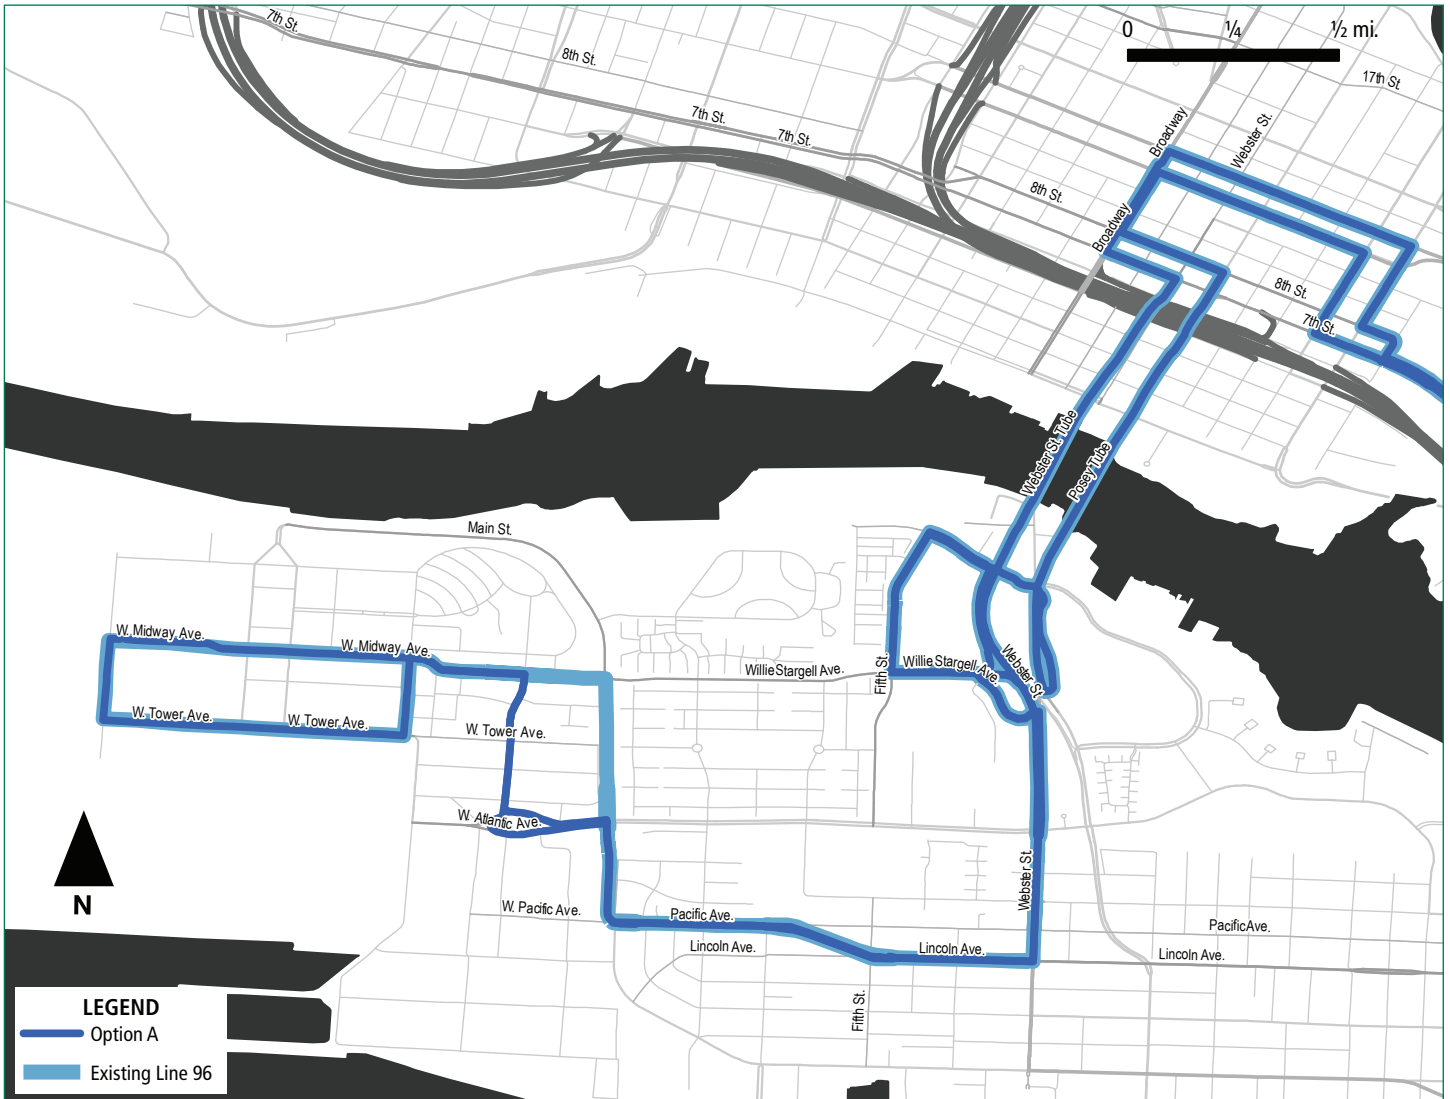

SERVICE CHANGE PROPOSALS

AC Transit staff prepared two proposals based on funding availability and specific TDM requirements. Both meet the requirement for 15-minute frequency for Alameda Point. What has not been determined is whether this frequency is required at the time of first occupancy at Site A, or if the frequency increase can be implemented as development progresses.

Proposed Option A (below) assumes the frequency increases over time as future development progresses. Option B assumes the 15-minute service increase is required with first occupancy at Site A. These options will be discussed at the upcoming community meeting and Public Hearings.

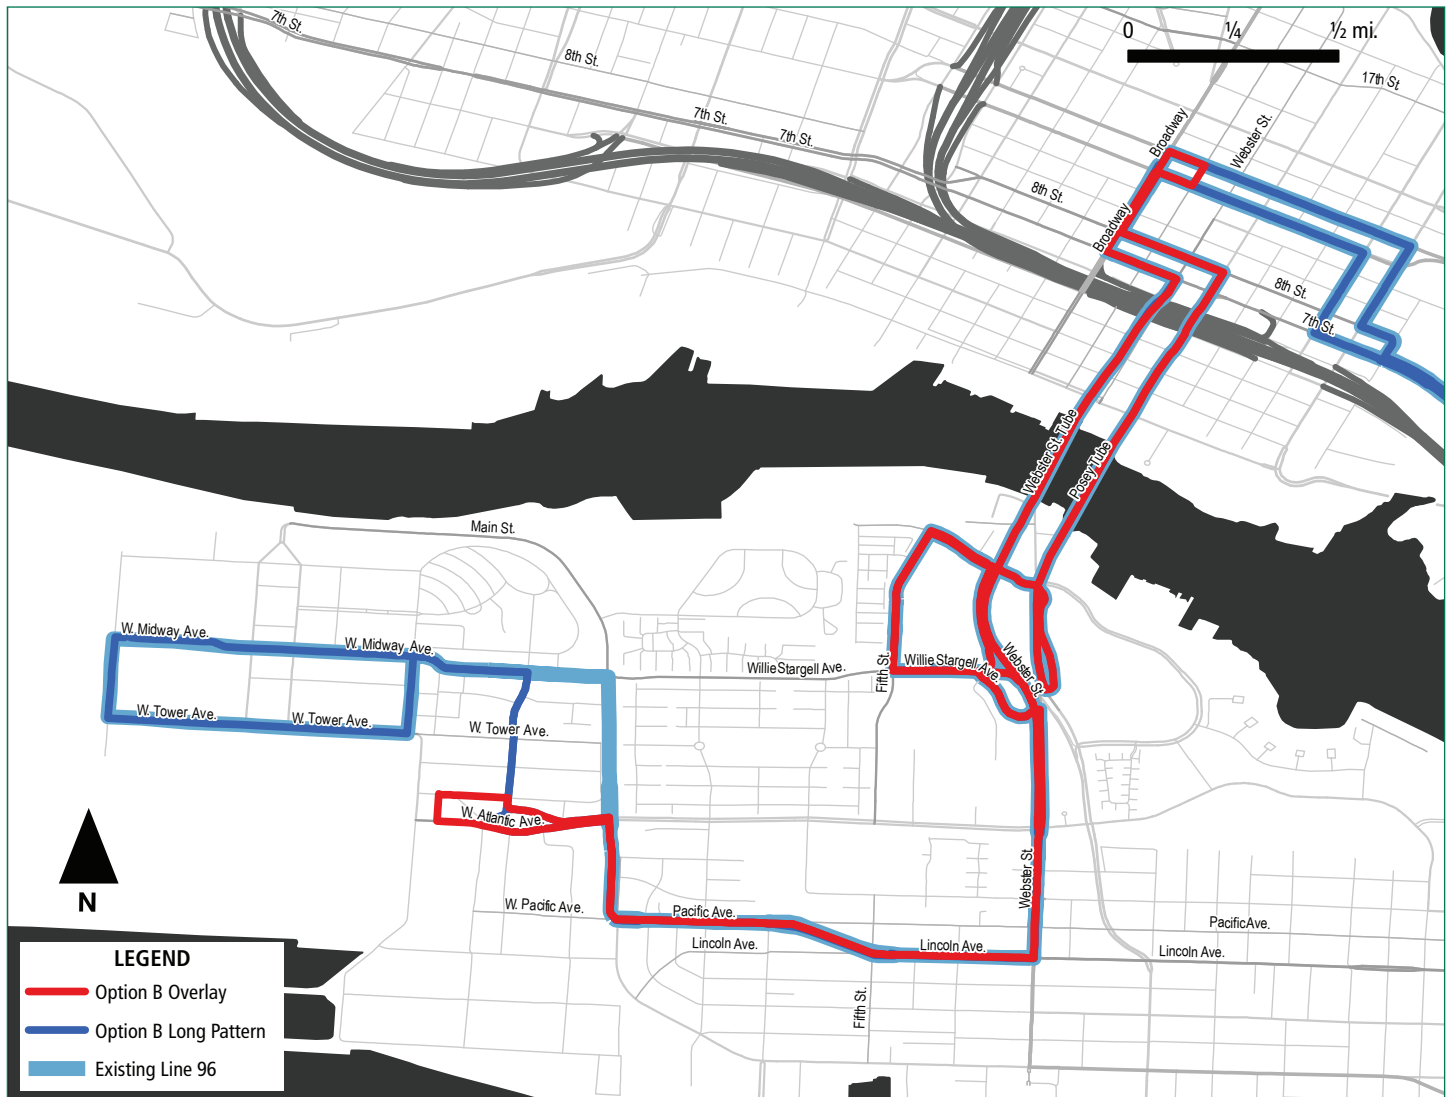

OPTION A

- Retains existing 30-minute service frequency.
- Deviates from existing route to serve Site A more directly via Atlantic Ave/Appezzato Memorial Parkway and Orion St.

OPTION B

- Retains existing 30-minute service frequency in existing route portions between Spirits Alley and the Dimond District
- Deviates from current route to serve Site A more directly via Atlantic Ave/Appezato Memorial Parkway and Orion St.
- Adds additional 30-minute Line 96 overlap between downtown Oakland and Site A to create 15-minute combined service between Site A and downtown Oakland.
